## Burchell Interiors ~ Always Exceptional

Set up by Phil Burchell in the 1980s, Burchell Interiors offers a bespoke interior design service for private and commercial clients in London, the UK, Europe and beyond. Burchell Interiors creates rooms that inspire and delight. The company's refreshingly individual and elegant style is as much at home in a corporate headquarters as a castle or weekend country retreat.

Burchell Interiors is based in beautiful North Devon where the enchanting landscape provides a constant source of inspiration and invigoration. Phil Burchell's designs are sophisticated and sensitive, appealing to every mood or taste, from the formal boardroom, to the relaxed billiard room or luxurious bedroom.

"We design every element in the room, using our skills, knowledge and expertise, and working with our clients every step of the way from the initial drawings to the finishing touches," explains Phil. "A room is a stage, a canvas which needs to be brought to life. We want to capture the room's potential, enrich its character and individuality, to produce a design which the owner can engage and connect with.

"We create spaces that people enjoy living in, that reflect their personalities, that provide an atmosphere that is always stylish and stimulating. We like our designs to add a touch of drama, a sense of theatre, interest and expression. That's why, we choose every last detail with the greatest of care."

Be inspired to something special
